

**ASBESTOS LANDFILL**  
**BLACKWELL HALL LANE, LEY HILL**  
**PLEASE SIGN THE PETITION OVERLEAF**  
**BY 23rd OCTOBER 2016**

Infill is likely to involve 60,000 lorry movements through Ley Hill over approximately 6.5 years, passing our homes, schools, pubs etc. Plans are for around **1 HGV every 12 minutes** along local roads during working hours (7am – 5.30pm) every weekday!

Our roads can't cope with the traffic now!

**One local public footpath runs within 20 metres of the asbestos site.**  
**Inhaled microscopic asbestos fibres can be deadly!**

Help protect our children, our villages and our towns.  
Let's work together and **petition both Bucks County Council and our local MP** to let them know how strongly we feel.  
Don't you think we should have a say in what goes on at this site, quite possibly at the expense of our health and safety?

We want Bucks C.C. to hold a planning consultation, where local residents can have an input, and then to draw up a new site planning consent, **ensuring that the local area and the site remain safe.** (Apparently, there is no planning consent for a landfill of this size, let alone an asbestos one!)

A letter has been sent to Bucks C.C. This can be read at: -

**HOW TO ADD YOUR NAME TO THE PETITION**

- 1) Please sign petition slip ON THE BACK OF THIS SHEET.**
- 2) Ask friends and family to sign.**
- 3) Put signed slips in the petition box in the Hen and Chickens Pub, Botley Road, or in the petition box in The Crown Pub, Ley Hill, or post through the letterbox of 3 Linington Avenue (off Botley Road) HP5 1XP.**

**PLEASE SIGN A PETITION SLIP, AND DELIVER BY 23rd OCT 2016**

PLEASE PHOTOCOPY IF YOU NEED MORE PETITION SLIPS

**(Please put signed slips in petition boxes in The Hen and Chickens Pub or The Crown Pub, or, post through the letterbox of 3 Linington Avenue (off Botley Road) HP5 1XP)**

(1) I would like Bucks CC to start a new planning consultation with public involvement for the Duntons site, HP5 1UW. (2) Bucks CC need to examine all traffic impacts and health and safety issues. (3) A new 'fit for purpose' planning consent must be issued for the site before asbestos landfilling, or any other full scale landfilling, is allowed to go ahead at the Duntons site.
